

MONSTER 797

Fresh
Vibes.
Sporty
Soul.

Contemporary and iconic as only a Monster can be. With its unmistakable lines and compact, essential design, it embodies all that is Monster style. Thanks to a chassis that ensures excellent handling, it can adapt to any situation, whether in or out of the city. The Brembo brakes and ABS as standard make sports riding even more enjoyable while always ensuring maximum safety. Making every riding experience as unique as it is easy and intuitive. Pure sports enjoyment, Ducati style.

Contemporary and iconic

The Monster 797 takes inspiration from its roots and injects a modern twist. This shines through in the personality, style and sports look of the circular headlight with LED positioning lights, the slim tailpiece and unmistakable tank that reintroduces the fastening hook seen on early models. Traditional elements such as the trellis frame and cooling fins of the Desmodue twin are combined with state-of-the-art components, making the Monster 797 both contemporary and iconic.

Agility and control

73 horsepower, 6.8 Kgm of torque at 5,750 rpm: with fluid, constant, easy to manage delivery, the 803 cc Desmodue twin is ideal for enjoyable sports riding. The torque curve is almost flat, with 90% of the torque available between 4,000 and 8,500 rpm, ensuring maximum riding enjoyment with full delivery at any speed, always ready to fulfil a rider's every request.

Sporty, compact design

The design of the Monster 797 is all about lines that are agile and dynamic, elegant and muscular, integrating perfectly with the wide handlebar, the tank, the engine and the double-sided swingarm. Lines that emphasise its safety and sporty nature right from first glance. It has a distinct style, with structural details that become true design elements, such as the traditional Ducati trellis frame. An essential and sophisticated bike, where every element is an expression of stylistic and technical research.

The Monster 797, featuring the sport front fairing and the passenger seat cover as standard equipment, is available in the colours Star White Silk and Ducati Red, embellished with graphics on the tank and seat and pinstripes on the wheels.

Turn up the fun

The Monster 797 boasts a modern and complete range of equipment. The large LCD hi-vis screen of the dashboard provides all the information needed for riding, while LED technology enhances the positioning light of the front headlight, rear light and licence plate light. Under the seat is a practical USB port for recharging a phone. The Monster 797 is also available for those with a restricted licence, as a version with 35 kw of regulated power. Contact your dealer to check availability.

A 35kW restricted power version of the Monster 797 is available for restricted licence holders. Please contact your dealer for information on availability. In Australia and New Zealand, the Monster 797 is available as a Learner Legal 659 version.

The pleasure of sports riding

The Monster 797 is perfect for those approaching the Ducati world, and the bike world in general, for the first time while, at the same time, also offering more expert riders a truly enjoyable riding experience. The low and narrow seat, wide handlebars and wide steering angle ensure agility in traffic and stability at high speed. The 43 mm upside down fork, fully adjustable single shock, braking system with 320 mm front discs and Brembo M4.32 radial callipers all provide great feeling, whatever a rider's level of experience. The compact measurements and reduced wheelbase ensure great handling in both the changes of direction and in corner entry, while ABS as standard makes sports riding even more exciting and safe.

Technical data and equipment

MONSTER 797

Bodywork: Ducati Red
Frame: Ducati Red

Bodywork: Star White Silk
Frame: Charcoal Black

Engine	Ducati Desmodue, L-Twin, Desmodromic timing, 2 valves per cylinder, Air-cooled

Servicing and maintenance

Safety as standard

Ducati's continuing commitment to design, research and development has the precise aim of ensuring that its motorcycles are always state-of-the-art and characterised by the highest degree of active safety. It is with this aim in mind and a view to increasing the rider's level of control that we continue to develop systems that are always at the forefront of the cutting edge, like the ABS system that is equipped as standard on the Monster 797.

More value to your passion

With Ever Red, the quality and reliability of the Ducati brand remain your inseparable travelling companions over time. Ever Red is the exclusive Ducati warranty extension programme. With its activation you can continue to feel protected for 12 or 24 months beyond the expiration of the Ducati Warranty (24 months). Ever Red includes roadside assistance for the entire coverage period and no mileage limits. In this way you can ride for all the kilometres you want, even abroad, enjoying your Ducati without any worries.

To find out if the Ever Red extension is available in your country and for further information contact your Ducati dealer or visit ducati.com.

Endless excitement

When designing each motorcycle, Ducati's goal is always that of achieving maximum reliability and lowering service costs. This commitment has made it possible to extend the main service intervals to 12,000 km for the Monster 797.

This is a considerable interval for a high-performance engine, confirming the superior quality standards we apply when selecting materials and during our R&D processes.

Ducati continues to invest in technical training for its dealers. The special expertise of the official Ducati Service network allows us to ensure that all of the maintenance needed to make sure every Ducati stays efficient is performed meticulously, while advanced equipment like the Ducati Diagnosis System makes it possible to update each Ducati's software with the latest available releases, guaranteeing that the electronic systems always deliver top performance.

Always by your side

One of Ducati's main goals is to offer every Ducatista the chance to enjoy unlimited and safe travel all over the world. To achieve this aim, Ducati offers a "fast delivery" original spares service, with delivery in 24/48 hours across 85% of the areas in which it operates. With a distribution network that covers more than 86 countries, thanks to 718 official Dealers and Service Points*, choosing a Ducati means you can travel worry free and in total freedom, wherever the road may take you, and count on support from our extensive Dealer network that ensures Ducati quality and professionalism is always close at hand.
